

MIXED BED DEMIN POLISHER UNITS

FOR VERY LOW VOLUME AND POLISHING APPLICATIONS

These units are non regenerable, mixed bed demin vessels ideal for use in applications where small volumes of pure water are required, or low TDS water (such as RO permeate) need to be polished.

- 3/4" Inlet & Outlet.
- Replacement Purolite MB 400 media is available - see Resin & Filter Media page.
- When sizing units, it is advised that the exchange capacity is used rather than the flow rate.
- The flow rate is provided purely as a guide to contact time required within the vessels.

Stock Code	Reference	Vessel Size	Resin per vessel	Flow Rate	Capacity (at 200ppm TDS)
5025000035	MB25	9"x35"	25 litres	1000 lph	2500 litres
5025000039	MB50	10"x54"	50 litres	2000 lph	5000 litres
5025000044	MB75	13"x54"	75 litres	3000 lph	7500 litres
5025000030	MB100	14"x65"	100 litres	4000 lph	10000 litres
5025000034	MB200	18"x65"	200 litres	8000 lph	20000 litres
